BUSINESS ETHICS – ENHANCING ORGANISATIONAL GOVERNANCE AND PREVENTING FRAUD

A failure to live up to high standards can damage reputation, lead to lengthy investigations and could involve possible prosecution. What exactly makes a decision ethical? The problem with ethics is that what may seem morally right (or ethical) to one person may seem inexcusable to another. This workshop will not provide you with an easy way to solve every ethical decision you will ever have to make. The workshop is designed to assist you to define your ethical framework to make solving ethical dilemmas easier. The workshop will cover some tools that may be used when faced with an ethical decision, and techniques to ensure you do not get stuck in an ethical quandary.

WHO SHOULD ATTEND

This workshop is designed for heads of internal audit, internal audit practitioners, risk managers, finance and procurement personnel and anyone who care about ethical conduct in the workplace.

TOPICS TO BE COVERED

1. Basics on Ethics and Morality
2. Ethical Decisions & Decision Making Tools
3. Ethics and the Workplace
4. The Internal Auditors' Code of Ethics
5. Performing and Ethics Audit
6. Principles of Ethical Hacking
