Global Guidance

# SMM - The IPPF actually started in 1998

- ❖ 16 person Guidance Task force formed in 1997, 20 years after the Standards were issued – there were 5 general and 25 specific guiding statements
- ❖ No clear distinction was made as to what was a standard and what was guidance – no IPPF
- ❖ No official definition of Internal Auditing
- ❖ No requirement for CPE
- ❖ No requirement for a QCR
- ❖ No requirement to state in an audit report that the audit was conducted in accordance with the SPPIA

## The Profession in 1998

- Only 30 percent have ever had a QCR
- Only 17 percent state in their reports that the audit was performed in accordance with the IIA Standards
- 72 percent believed compliance with the Standards should be mandatory
- 74 percent favored enforcement beyond self-evaluation

# International Professional Practice Framework

## AUTHORITATIVE GUIDANCE

# SMM

## IA Definition Before 1999 and as Proposed by the Guidance Task Force

- Old Definition
  - Internal auditing is an **independent** appraisal function established **within an organization** ....
- As Proposed
  - Internal auditing is an objective assurance and consulting activity that is **independently managed within an organization** ....

## IIA Definition of Internal Auditing

- Internal Auditing is an independent, objective assurance and consulting activity designed to add value and improve an organization's operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

# SMM

## In 2002, Enron Collapsed and Arthur Anderson Ceased to Exist

- Arthur Anderson provided financial audit, internal audit, and “consulting services” for Enron. AA was one of the “big five.”
- “Consulting” presented a problem for the IIA and for the Yellow Book. In the YB consulting conflicted with independence standards.
- The issue of IA being included in the YB arose once more. IA was viewed by some as not independent when within the organization
- In response, the Comptroller General formed a YB independence subcommittee. He concluded CPA’s could audit financial statements or be the bookkeeper – but not both. **IA was left alone**

# SMM

## **The IIA and GAO form a Work Group to Identify the Difference Between the Red Book and Yellow Book**

- A 53 page comparison document was issued.
- 12 difference were identified with suggestions of how to address the differences
- The IIA and GAO concluded that consulting services under the Red Book was the same for all practical purposes as performance auditing under the Yellow Book

## AICPA - AU-C Section 610 - Using the Work of Internal Auditors

- Factors to consider:
  - The level of competency of the internal auditors
  - Whether the organizational status and relevant policies adequately support the objectivity of the internal auditors
  - Whether the function applies a systematic and disciplined approach, including quality control

# Current Definition of Internal Auditing

- An independent, objective assurance and advisory service designed to add value and improve an organization's operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of governance, risk management, and control processes.
- SMM Note – Internal auditing (whether consulting or advising) is not a partnering activity

# Global Internal Audit Standards: Fundamentals and Public Sector sections

The Institute of  
Internal Auditors

## **Internal Auditing and the Public Interest**

- Describes the commitment of The IIA and the responsibility of the IASB to set standards in the public interest.
- Defines public interest and internal auditing's role in enhancing an organization's ability to serve the public interest.

## **Demonstrating Conformance with the Standards**

- Internal auditors may be unable to conform with a requirement yet still achieve the standard's intent.
- Chief audit executive is responsible for documenting, conveying the rationale and the alternative actions for EQA.
- Details in relevant Standards.

## **Application in Small Internal Audit Functions**

- Too many variables to define "small." However, single-person functions need assistance to implement an adequate QAIP.
- Additional details in Standards 10.1 Financial Resource Management, 12.1 Internal Quality Assessment, and 12.3 Oversee and Improve Engagement Performance.

## **Application in the Public Sector**

- Mentioned in Fundamentals and has its own section, "Applying the Global Internal Audit Standards in the Public Sector," following Domain V: Performing Internal Audit Services.

**Internal auditors in the public sector** operate in a **political environment**, which sometimes differs from private sector in how they apply the Standards and use **terminology**, specifically related to the following areas:

## **Laws and/or Regulations**

- Acknowledges the legal framework under which internal auditors in the public sector work.
- Recognizes conform or explain approach, as described in Fundamentals and the Standards.

## **Governance and Organizational Structure**

- Explanations and examples describing governance and organizational structures in the public sector.
- Situations to be aware of and ideas for internal audit functions to adjust the application of certain standards while safeguarding independence.

## **Funding**

- Some structures do not give the board and senior management authority over the budget.
- Chief audit executives in the public sector may have limits on the way they may access and use resources.
- Examples to be aware of and ways to adapt.

# Domain I: Purpose of Internal Auditing

The Institute of  
Internal Auditors

## **Purpose Statement:**

Internal auditing strengthens the organization's ability to create, protect, and sustain value by providing the board and management with independent, risk-based, and objective assurance, advice, insight, and foresight.

### **Internal auditing enhances the organization's:**

- Successful achievement of its objectives.
- Governance, risk management, and control processes.
- Decision-making and oversight.
- Reputation and credibility with its stakeholders.
- Ability to serve the public interest.

### **Internal auditing is most effective when:**

- It is performed by competent professionals in conformance with the Global Internal Audit Standards, which are set in the public interest.
- The internal audit function is independently positioned with direct accountability to the board.
- Internal auditors are free from undue influence and committed to making objective assessments.

# Topical Requirements

The Institute of  
Internal Auditors

# Topic Progression in IIA Content & Services

# Topical Requirements

## Topical Requirement Are:

- Required when an internal auditor is performing an **assurance engagement on a topic/risk area** for which a Topical Requirement exists.
- Subject to applicability as **determined by risk-based internal audit plan**. Limitations must be documented.
- A **baseline for engagement performance** when the topic/risk area is subject to review.
- Inclusive of aspects of **governance, risk management, and control** processes.
- Subject to **external quality assessment**.

## Topical Requirements Are Not:

- Requirements to perform an engagement on the topic.
- Comprehensive work programs.
- Designed to address emerging topics.
- Substitutes for risk assessments or professional judgment.
- Designed to circumvent or supplant legal and regulatory requirements.

# Topical Requirements

## Why Topical Requirements?

- Strengthen the ongoing relevance of the IPPF by **addressing pervasive and evolving risks**.
- Ensure **consistency and quality** of engagement performance.
- Increase focus on **resource investments needed** for the internal audit function to achieve its mandate and fulfill the Purpose of Internal Auditing.

## How?

- Developed by **experts and internal audit leaders** representing various sectors and industries **globally**.
- Include broad proactive **stakeholder outreach** and collecting feedback collected through a **public comment period**.
- Involve ongoing **oversight of due process** by IPPF Oversight Council, an **independent** body comprising representatives of global organizations.

## Timeline

# External Quality Assessments

The Institute of  
Internal Auditors

## Options for Planning EQAs

based on the January 9, 2024, issuance of the Global Internal Audit Standards and the effective date of January 9, 2025.

### If the EQA is due in 2024:

- The quality assessment should be conducted as scheduled in conformance with the current IPPF.
- A gap assessment should be considered in 2024 in addition to the current EQA to prepare for the transition.

### If the EQA is due in 2025 or beyond:

- The quality assessment can be accelerated into 2024 to allow for the assessment to be conducted in conformance with the current IPPF.
- A gap assessment can be conducted in 2024 to identify any gaps for the implementation of the Global Internal Audit Standards.

# Changes to Examinations for IIA Credentials

The Institute of  
Internal Auditors

## New Exam

- Expected in English May 2025.
- Expected in other languages according to schedule published at [www.theiia.org/cia2025](http://www.theiia.org/cia2025).
- For this information and more, scan QR code.

- No changes before Standards effective date.

- Not affected; remains the same.

**IIA Standards and Guidance Tool**  
 Guide to Customizing the Model Internal Audit Charter for Public Sector Use

**Introduction**

The Global Internal Audit Standards™ require the chief audit executive to develop an internal audit charter, defined as "a formal document that includes the internal audit function's mandate, organizational position, reporting relationships, scope of work, types of services, and other specifications." According to Standard 6.2 Internal Audit Charter, the charter must also include the purpose of internal auditing and the internal audit function's commitment to adhering to the Global Internal Audit Standards.

This normative tool is intended to be customized to reflect the operating environment of each internal audit function and the organization it serves, along those that vary greatly. While chief audit executives in public sector organizations may choose to use the model internal audit charter available from the IIA, this version has been modified to make reference unique to the public sector environment. Additionally, both model charters may be used as references to create a completely unique version, since neither model is required.

## McCall on Auditing

- Keep your Board /Agency Head informed on the issues, what you are doing to address the issues, what they can expect next, and how **you** plan to address and resolve the issue.
- People at the top do not get upset an issue has occurred. They do have a right to get upset when the person working on the issue allows it to get out of hand such that it lands on their desk to handle
- We can attribute our accomplishments to people **allowing us** to be part of the process
- Access has to be earned, it cannot be bought, and should always be valued. Once you realize you have lost access or someone's trust, it is usually too late to earn back that trust or access.
- Always be viewed by others as "Fair" in your work. Our work affects others livelihood
- Don't try to make yourself look good at someone else's expense. Allow everyone to have their dignity. Do not take pride in someone losing their job.
- People bother you because you let them bother you.
- If you have something to say, say it in the report. You can not change, add to, or take back written comments once the report is publicly issued.
- Search for the truth and be clear enough to be proven wrong.
