Collaborative Auditing

[Register Here!](#)

Location: Virtual

Date/Time: November 14, 2023, 12:00 pm - 1:00 pm

Cost: IIA Member: \$15, Non-Member \$25

Speaker: Jami Shine, CIA, CRMA, CISA, CRISC

Description: Internal auditors are being asked to take on new roles as we move from being “compliance police” to trusted advisors. These new roles come with new challenges. While collaborative auditing presents many new challenges, it also provides more opportunities to create value for your auditees. This session will discuss implementing a more positive, collaborative approach to assurance engagements in your audit shop without compromising the integrity and objectivity that your board relies upon and that the Standards require.

Description: An overview of standards applicable to those risks, resources available to help members address those risks, and benchmarks related to how other organizations are responding to those risks.

Statistical Sampling

Location: Virtual

Date/Time: February 13, 2024, 12:00 pm - 1:00 pm

Cost: IIA Member: \$15, Non-Member \$25

Speaker: Zac Rhyne

Description: Statistical sampling is a generally accepted audit technique widely used in tax, internal audit, financial statement auditing, and many other regulatory and assurance functions. Even with this broad use and deep acceptance of sampling, there can be a wide range of practices and a lack of standardization for audit sampling.
